

Doctoral Training Programme

Neutron-rich matter: constraints from nuclear physics and astrophysics

Week 1 (provisional programme)

April 15 – 19, 2013

Monday, April 15

10h00 Wolfram Weise (*Director of ECT**)

Welcome address.

10h10-11h10 and 11h40-12h40

Achim Schwenk (*Technische Universitaet, Darmstadt*)

Neutron-rich matter: constraints from nuclear physics and ultracold atoms.

Tuesday, April 16

10h00-11h00 and 11h30-12h30

Achim Schwenk (*Technische Universitaet, Darmstadt*)

Neutron-rich matter: constraints from nuclear physics and ultracold atoms.

14h30-16h00 (Seminar room, 2nd floor, Villa Tambosi)

Five minute student presentations.

Wednesday, April 17

10h00-11h00 and 11h30-12h30

Achim Schwenk (*Technische Universitaet, Darmstadt*)

Neutron-rich matter: constraints from nuclear physics and ultracold atoms.

Thursday, April 18

10h00-11h00 and 11h30-12h30

Achim Schwenk (*Technische Universitaet, Darmstadt*)

Neutron-rich matter: constraints from nuclear physics and ultracold atoms.

Friday, April 19

10h00-11h00 and 11h30-12h30

Achim Schwenk (*Technische Universitaet, Darmstadt*)

Neutron-rich matter: constraints from nuclear physics and ultracold atoms.
